

BOYERTOWN, PA (November, 2013)

A.W. Mercer was recently contracted to supply a number of polished stainless steel elbows, end caps, wire ways and motor control boxes for a large conveyor project for an international packager of foods and supplements. The company was called on to laser cut, form, weld, grind and finish to a high luster thousands of these stainless steel pieces. The project is being supervised by A.W. Mercer's certified welding inspector (CWI), Sasa Randjelovic and our in house finish specialist, Kelly Beljin. Beljin has over 30 years of experience producing high end quality finished products for the retail market including names like Neman Marcus, Phillips Van Heusen, Banana Republic and many more. Together, these 2 specialists are able to not only meet but to exceed our customer's requirements and expectations. A.W. Mercer is able to produce and deliver finished goods ahead of schedule giving our customers the opportunity to meet their customer driven deadline.

A.W. Mercer's customers look to us for production and quality solutions. With a veteran engineering and production staff, A.W. Mercer is called upon to help with the design and manufacturing of our customer's requirements that range from highly polished stainless steel product to powder coated and welded assemblies. Another valuable A.W. Mercer service is the ability to drop ship completed orders to our customer's end users.

A.W. Mercer has been in business since 1926. Located in Boyertown, PA the company has drawn on the local skilled craftsmen who have dedicated themselves to the tradition of engineering and manufacturing quality products for our customers. Our state of the art facility, built in 1989, is located in the Ironstone Corporate Center.

According to Roger Collette, Sales Manager, the entire facility is committed to the highest quality production available. Technological advances and processes have allowed us to provide our customers with diversified product and custom manufacturing capabilities. This is accomplished in our 69,000 square foot plant in Boyertown, Pennsylvania.
